How do I join?

Our Pet Health Plan is easy to join. All you need to do is complete a simple agreement form with your information, including your banking details.

Three ways to join!

- ✓ Speak to a member of our surgery team
- ✓ Call our plan administrators on 0800 050 2022
- ✓ Scan the QR code to sign up directly through our plan administrators

Our Pet Health Plan is NOT a pet insurance product. Pet insurance is aimed at providing cover for the treatment of unforeseen accidents or illnesses and does not typically cover preventive healthcare costs.

Why choose a Pet Health Plan?

We believe that prevention is always better than cure to help give your much-loved pet a long, healthy and happy life.

Preventing diseases and infestations that can cause fatal illness is giving the best care possible, so we offer a range of effective treatments, tailored to their individual needs.

We cover all the essential treatments throughout your pet's life, such as vaccinations, the best flea and worm treatments, and regular health checks and advice; and by registering for our **Pet Health Plan**, we make your pet's preventive healthcare easy and affordable.

Through a simple monthly direct debit you can spread the cost across the year*, and you benefit from additional discounts, reducing your total veterinary bills. Please read on for more information, or speak with one of our team today.

*If the Pet Health Plan is cancelled, the treatment received will be offset against the amount paid to date, which may incur additional charges.

**If your cat weighs over 5kg and needs a spot-on worm treatment, our team will apply a surcharge to your plan. If you add home delivery to your pet's plan (£2.50/month), the surcharge will not apply. To include this option, please call Vetsure on 0800 050 2022 or email healthplans@vetsure.com.

Senior pets

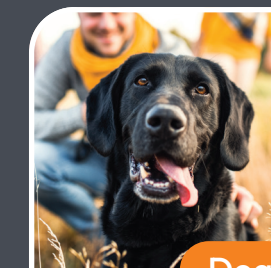

As dogs are considered senior at the age of 7 years and cats at 10, their needs will inevitably change.

At no additional cost, we have tailored our plans to suit the needs of senior pets too, adding some extra checks to help keep them tip top and healthy for as long as possible.
